the oil may not be enough to leak to the ground. If you notice that the leak is coming from this gasket, it will need to be replaced. This solution will take the most amount of time because the entire oil pan underneath the engine block will need to be removed, cleaned, and re ...

Honda Accord: Why is My Car Leaking Oil? | Honda-tech

A gasket is a shaped material that's made to seal the space between two surfaces. An engine gasket seals off the cylinders in your combustion engine to provide the maximum amount of compression and prevent leaks. Since this particular gasket sits in your engine's combustion chamber, it gets continuously exposed to high temperatures and pressure.
