According to panpsychism, in contrast, consciousness pervades the universe and is a fundamental feature of it. This doesn't mean that literally everything is conscious. The basic commitment is ...

### Does Consciousness Pervade the Universe? - Scientific American

In a biocentric universe, consciousness is everything and "feelings" are indeed a component of consciousness. Even the most rigorously empirical scientist must allow that at the end of the data analysis, it is her "feelings" about those empirical findings that lead her into the next set of questions, the next area of inquiry.

The Omega Point is a supposed future when everything in the universe spirals toward a final point of unification. The term was invented by the French Jesuit Catholic priest Pierre Teilhard de Chardin (1881-1955). Teilhard argued that the Omega Point resembles the Christian Logos, namely Christ, who draws all things into himself, who in the words of the Nicene Creed, is "God from God", "Light ...
