The Auto Agent from EZ LYNK is the most advanced vehicle diagnostics device to ever hit the automotive market. This device plugs into your vehicle's OBDII port under the dash and communicates with your smart phone via the free mobile App.

EZ LYNK Auto Agent 2 WiFi Diagnostics and Tuning Device

But this allows you to use the PID tuner on an individual gain where you don't need to actually tune the full PID controller using the tuning functionality which I'll show in a moment. So backing up a little bit more, this is the flight path or gamma path where you have a gamma command coming into a proportional controller-- gamma error, excuse me.
