Students receive training in applied math, physics and chemistry and are also paired with a professional mentor.

UW GenOM Project, Partner Programs for High School Students

An automotive engineer's career training begins with a four-year bachelor's degree from an accredited college or university. This is generally the basic requirement for entry-level jobs in the career. While pursuing their bachelor's degree, students take classes in a range of fields, including physics, mathematics, design and computer science.
