Since the following generation of 3 Series used turbocharged engines for the entire model range, the E90/E91/E92/E93 was the last 3 Series to be available with a naturally aspirated engine. In some areas of the United States, the 328i was powered by the BMW N51 inline-six engine and sold as a SULEV model. Diesel

BMW 3 Series (E90) - Wikipedia

Underbody covers may look like skid plates, but there is a number of fundamental differences between the two. The function of a skid plate is to physically protect components from damage that they can experience when the vehicle is moving over a rough terrain. They are made of metal and are attached to the vehicle's frame.
