Dear Reader, There's a US holiday today, in observance of Martin Luther King Day. So, both stock and bond markets are closed Stateside. As usual, trading may be more subdued, especially for the afternoon session here in Europe, with the American's away. Forex markets will not be that much affected.

Many times, private debt strategies and private capital strategies will give you income that is 2X, 3X, 4X, which you can get in traditional, more liquid markets. So, again, you don't want to have all your money locked up in those non-liquid spaces, but it's a great supplemental add to boost the yield in portfolios.

In finance, a derivative is a contract that derives its value from the performance of an underlying entity. This underlying entity can be an asset, index, or interest rate, and is often simply called the "underlying". Derivatives can be used for a number of purposes, including insuring against price movements (), increasing exposure to price movements for speculation, or getting access to ...
