The History of Money: From Barter to Banknotes

Origin of Money: Though trade was done through barter, people started confronting some problems with the system. In order to exchange an item, the seller must have the specific good the buyer needs and vice versa. This was not always possible. Another major drawback was lack of a common value to measure the value of goods.

Barter Services - History of Barter System - Historyplex

The economist explains the exchange value for a Picasso by saying that the buyer derives utility from the painting, and at that point the explanation stops.) People value units of money because of their expected purchasing power; money will allow people to receive real goods and services in the future, and hence people are willing to give up real goods and services now in order to attain cash ...
