To make a sinus rinse, or nasal irrigation solution, follow these steps: mix together 3 tsp of salt and 1 tsp of baking soda add 1 tsp of this mixture into 1 cup of water and stir until the solids ...

How to make saline solution at home: Ingredients and uses

The goal of a buffer solution is to help maintain a stable pH when a small amount of acid or base is introduced into a solution. A phosphate buffer solution is a handy buffer to have around, especially for biological applications. Because phosphoric acid has multiple dissociation constants, you can prepare phosphate buffers near any of the three pHs, which are at 2.15, 6.86, and 12.32.
