In linguistics, subordination (abbreviated variously SUBORD, SBRD, SUBR or SR) is a principle of the hierarchical organization of linguistic units.While the principle is applicable in semantics, syntax, morphology, and phonology, most work in linguistics employs the term "subordination" in the context of syntax, and that is the context in which it is considered here.

Subordination (linguistics) - Wikipedia

In linguistics, codification is the process of selecting, developing, and laying down (prescribing) a model for standard language usage.. Codifying a language can vary from case to case and depends on the stage of standardization that might have already occurred naturally. It typically means to develop a writing system, set up normative rules for grammar, orthography, pronunciation, and usage ...

"Implicature" denotes either (i) the act of meaning or implying one thing by saying something else, or (ii) the object of that act. Implicatures can be determined by sentence meaning or by conversational context, and can be conventional (in different senses) or unconventional.

Implicature (Stanford Encyclopedia of Philosophy)

Introduction. The Universal Grammar (UG) hypothesis—the idea that human languages, as superficially diverse as they are, share some fundamental similarities, and that these are attributable to innate principles unique to language: that deep down, there is only one human language (Chomsky, 2000a, p. 7)—has generated an enormous amount of interest in linguistics, psychology, philosophy, and ...

What exactly is Universal Grammar, and has anyone seen it?

Academic reactions to Krashen. Ellis (1990, p.57): 'the lucidity, simplicity, and explanatory power of Krashen's theory'. Lightbown (1984, p.246): a combination of 'a linguistic theory (through its "natural order" hypothesis), social psychological theory (through its "affective filter" hypothesis), psychological learning theory (through its acquisition-learning hypothesis), discourse analysis ...
