### **Download Opc Unified Architecture**

Now the OPC Foundation has released a new generation of OPC specifications called OPC Unified Architecture (OPC UA). With OPC UA, the OPC Foundation fulfills a technology shift from the retiring COM/DCOM technology to a service-oriented architecture providing data in a platform-independent manner via Web Services or its own optimized TCP-based ...

**Mahnke Opc Unified Architecture**

OPC Unified Architecture (OPC UA) is described in a layered set of specifications broken into parts. It is purposely described in abstract terms and only in selected parts coupled to existing technology on which software can be built. This layering is intentional and helps isolate changes in OPC UA from changes in the technology used to ...

The OPC Unified Architecture (UA), released in 2008, is a platform independent service-oriented architecture that integrates all the functionality of the individual OPC Classic specifications into one extensible framework. This multi-layered approach accomplishes the original design specification goals of: Functional equivalence: all COM OPC Classic specifications are mapped to UA Platform ...

### **Unified Architecture - OPC Foundation**

OPC Unified Architecture is a machine to machine communication protocol for industrial automation developed by the OPC Foundation. Distinguishing characteristics are: Based on a client server communication Focus on communicating with industrial equipment and systems for data collection and control Open - freely available and implementable under GPL 2.0 license Cross-platform - not tied to one operating system or programming language Service-oriented architecture Inherent
