Trading is as much about psychology as it is about developing a solid strategy. Without the mental strength to stick to a plan, the best strategy in the world won't do any good. Good traders not only evolve and master a strategy, but they also become more aware of their own traits (such as discipline and patience) and grow them, which allows ...

What is Day Trading? Day trading is a speculative trading style that involves the opening and closing of a position within the same day.. Quick example: If you open a new position at 10AM and close it by 2PM on the same day, you have completed a day trade. If you were to close that same position the following morning, it would no longer be considered a day trade.
